

NEW PRODUCT RELEASE

"Bringing you Quality Products at costs that are sure to improve your bottom line!"

NEW Pentius UltraFLOW UFXL Extended Life Oil Filters!

Over the past few years, two important trends associated with "vehicle maintenance" have been apparent in the automobile industry! Vehicle manufacturers have been extending their oil change intervals as engine technology and longevity have improved. And, during the same time period, the lubricant manufacturers have been moving away from conventional oil, and moving toward synthetics, synthetic blends, and a wider variety of conventional oil viscosity.

These trends set the stage for the introduction of "Extended Life" oil filters, to match the fast-evolving enhancements in engines, and in motor oil. Quickly fading from view is the traditional "3,000 to 5,000 mile" oil change interval!

Following the lead of some of our oil filter competitors, Pentius Automotive Parts is pleased to introduce the new **UFXL - Pentius UltraFLOW Xtended Life** oil filters. This superior product is designed and engineered to maximize particle and toxin removal, while providing optimized oil flow and engine protection.

Primary features and benefits of the new Pentius UFXL filters are:

- 99% filtration efficiency for 20 microns and above particles
- Proven 10,000-mile(16,000Km) change interval using synthetic oil
- Optimized for both synthetic and conventional oil
- Long-life silicone anti-drain back valve and gasket
- Anti-slip texture on entire housing making the filter change easier and quicker

The attached pages provide you with a list of the Pentius UFXL oil filters numbers with their cross-reference part numbers. Note that these are the fastest movement items for both spin-on and cartridge items.

Packaging for each spin-on oil filter remains at 12 and the cartridge type oil filter at 6.

For more details, call us toll free at (877) 852-5000, e-mail us at CustomerService@PentiusAutoParts.com or visit our website at www.PentiusAutoParts.com
